

Handling roof, side and floor elements

STRÖDTER | CARAVAN | MOTORHOME HANDLING OF ELEMENTS

Easy and safe lifting, moving and transporting of large components

For weightless movement of panel materials, rolls, packaging, containers and many other products, the **STRÖDTER** company offers the market special, standardized gripper systems. Considering large-volume components in production of caravans and motorhomes, we rely on a combination of:

- STRÖDTER | ROLLYXPLUS+ Rail system
- STRÖDTER | 2 Chain hoists (DEMAG)
- STRÖDTER | Vacuum suction traverse

Operation (see back) is simple for the worker. He can move a large number of heavy elements a day because the upright, ergonomic posture at this workplace allows him to carry out the work process permanently without being strained.

You can reach us daily from Mon. to Thu. from 7:30 a.m. to 4:30 p.m. and on Fri. 7:30 a.m. to 2 p.m.

Telephone +49 (0) 23 85 - 9 21 21-0
